

DIRECTING HOME LEARNING

A FREE COURSE TO HELP PARENTS, HELP STUDENTS

Guide education are offering a free support course to share with parents and guardians.

Guide write: *"The content of this course covers tips and tricks for parents to direct, inspire and feel in control of a child's learning at home.*

*It distils years of experience from **teachers and headteachers who are also parents**, into bite size videos with practical ideas and reflection points to develop with their children.*

*During the last lockdown we were inundated with requests for help and advice on home study, in our tuition centres and online. So we felt **a course that honours parents and teaching basics would be of use.***
