

COVID

Well what a week we have had!!

We are pleased to say we have had no new cases of covid in the school since Monday. We are looking forward to the majority of our pupils returning to school next week having finished their isolation periods and undertaking the suggested extra close contact PCR tests. We would like to thank all parents, carers and pupils for dealing with this worrying and somewhat confusing situation so sensibly. Guidance has changed as the situation has changed on a daily basis and we are keeping you informed as speedily as we can.

There are still new positive covid cases in many of the local schools, so we are asking parents / carers to continue to be vigilant. If your child has ANY of the symptoms then please take them for a PCR test. We would encourage you to test your child twice-weekly using lateral flow test kits. This is to pick up any asymptomatic cases and should not be used where people are symptomatic. You can collect these tests from pharmacies or order online for free.

Our step up/ step down Covid plan and our covid management plan can both be found on the school website.

The main symptoms of coronavirus (COVID-19) are:

- a high temperature — this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- a new, continuous cough — this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- a loss or change to your sense of smell or taste — this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

If you have any of these symptoms, get a PCR test (test that is sent to a lab) to check if you have coronavirus and stay at home until you get your result, even if the symptoms are mild.
