

Goal - An eager explorer

First milestone	To investigate and explore with an enquiring mind the community around them, the natural world and changes they see.
Second milestone	Have an awareness of the seasonal changes and how this effects the natural world around them.
Third milestone	To begin to explore with an enquiring mind, things from the past including, people and artefacts.
Final milestone	Who shows curiosity about the world around them, knows their own family tree and understands differences between our country and other countries.
