

Goal - An independent problem solver

First milestone	To manage their own personal needs with limited support. To make links between ideas and to persevere when things get tricky.
Second milestone	Listen appropriately to instructions and use these accordingly to complete tasks with increasing determination and confidence.
Third milestone	To manage their own personal needs independently. To have a 'have a go' attitude when approaching all new activities however tricky.
Final milestone	Who can confidently try new activities showing determination to complete a goal and show resilience when facing challenges.
