# COMPUTING: CREATING MEDIA- Digital Writing

KNOWLEDGE ORGANISER

Sticky Knowledge

Digital Writing

-Know that the space key makes a space and backspace deletes text.

-Know that where the font and size icons are and what they change font style and make it bigger or smaller.

Using a Keyboard

-A keyboard is an input device that lets a person enter letters, numbers and symbols.

-Most keyboards are laid out in the same way. This is often called the QWERTY layout.

-The buttons on a keyboard are called keys.

-You can choose where to write by moving the cursor (the arrow) over the page. When you click a flashing line will appear. This is the text cursor. It allows you to type in letters.

Caps key, press this for capital letters.

Space bar, for leaving spaces.

Backspace key, removes the letter on the left of the text cursor.

Enter key, moves everything after the text cursor down one line.

Arrow keys, can move the text cursor.

The Toolbar

The toolbar is the set of icons and buttons that are at the top of the page in a word processor. Below are some of the most common tools.
These tools can change the text. The **B** makes the text **Bold**. The *I* writes the text in *Italics*. The U underlines the text.	Clicking on this icon allows you to change the size of the text. After pressing the icon, you will see a list of numbers. The larger the number selected, the bigger your text will be.
Clicking on this icon allows you to change the font (style) of the text. Most word processors have many styles to choose from.	Clicking on this icon opens the text colour tool. It allows you to change the colour of the text. There are often many colours to choose from.

When we want to save our writing, we should click on this icon. The first time that we save, we need to choose a file name and a location (folder) to save it in.

Making Careful Choices

The undo tool reverses the last thing that you did. If you make a mistake, the undo tool can help you to get it back to how it was.

The redo button re-does something that you have undone!

Hand writing or Digital writing?

-Hand writing is often seen as more personal. For many people, it is a bit quicker than typing.

-Digital writing is often neat, tidy and easy to read. It can be more easily edited (changed).
